\*\*At renewal, maintenance fees for upcoming year calculated as a percentage of then current license fees. The maintenance period begins 30 days after receipt of the French Creek Software System. All prices U.S. \$.

French Creek Software programs are predictive modeling tools which enable Customer to obtain a more complete understanding of the chemistry of the water being analyzed. French Creek Software programs should be used as a supplement to Customer's historical experience and other testing procedures which Customer may utilize. French Creek Software programs are not intended as a substitute for the exercise of judgment by Customer's employees and/or consultants.
